George Brown, City Manager provided a handout to council members of a proposal for the division and department management reorganization with slight differences to the Operational Assessment. He stated that the proposed grouping of the Water and Wastewater Utilities team under one division is already implemented and that is also the case with Engineering and Public Services. He proposes to create an Administrative and Fiscal Services Division to include Finance, IT oversight, Purchasing, Assessing and Clerk-Treasurer's Office and a Community Development and Recreation's Services to include Planning, Construction Code, Zoning and Recreation and a Public Safety Division that would include Police and Fire. He further stated he would like approval from Council to begin establishing these divisions and that Ordinances and job descriptions would be drafted and brought before Council.

Mayor Worrell asked for input from each council member.

Council discussed the pros and cons of the division and department management reorganization.

It was moved by Councilman Paisley and supported by Councilman McGhee that the meeting adjourn at 7:25 p.m.
